**Oettinger Aerodynamic Design
For the Volkswagen Golf GTI**

A sporty design has always been part of the Golf GTI's basic setup. With the Oettinger aerodynamic additions, its sporty performance is taken to the peak and thus provides a visibly more club sport look. The front spoiler, roof spoiler and rear diffuser fit precisely and are manufactured from high-quality RIM. All components have been tested under extreme conditions in the VW wind tunnel.

The 19-inch Volkswagen Genuine „Twinspoke“ light-alloy wheels in Red Edition finish or black gloss finish are a further highlight and complement the Oettinger GTI aerodynamic package nicely.
